### **DETAILED ACTION**

1. The Amendment filed on May 27, 2993 regarding to Claims 1 and 2 are not based on the claims as previously filed on September 28, 2001 in that the canceled sections of Claims 1 and 2 respectively are not in the Claims as previously filed.

## Claim Rejections - 35 USC § 103

2. Claims 1-12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Tani et al. (JP 10-231317) for the same rationale as set forth in the previous office action, Paper No. 4.

## Response to Arguments

3. Applicant's arguments filed on May 27, 2003 have been fully considered but they are not persuasive.

Applicants asserts that the claimed process shown unexpected higher molecular weight of over 35,000 g/mol compared to the cited prior art, Tani; however, there is no support to back up such a statement. Secondly, the molecular weight limitation is not in the instant claimed process. Thirdly, the showing is not commensurate to the scope of the claims since the showing is only based on the single complex of the working example, Example 8.

#### Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1713

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
